

# Sponsor a Star

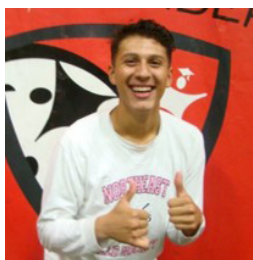

Sponsor a "star" and inspire real social change: one kid at a time.

**Your \$3,000 gift will change the trajectory of a young person's life.**

Your generous gift does more than cover program costs for a student for one year. It is an investment in their future, helping them grow as an athlete, student, and community member.

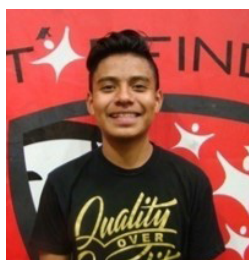

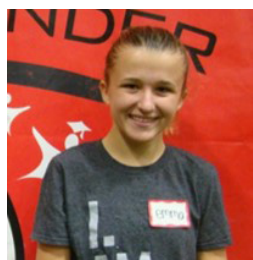

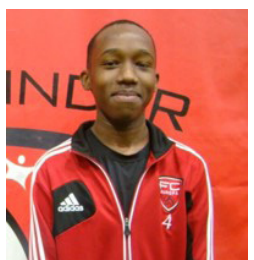

Your gift enables Starfinder to provide all the physical, emotional, and life skill-building benefits that are intrinsic to team sports, along with mentoring, college guidance, and leadership training.

*Sponsor a Star* donors get to see their support in action. As a Sponsor, you will be matched with a Senior Leaders Program student who will share their journey with you.

## Your Sponsorship Includes:

- Updates from your student via letters, videos, and photos
- Opportunities to meet your sponsored student (and other teens in the program)
- Regular program and organizational updates
- Volunteer opportunities alongside our youth
- Recognition on our website and newsletter
- VIP invitation to our annual Graduation Celebration in May

Starfinder. Soccer for Social Change.

# Senior Leaders Program

**Success on the pitch requires hard work, persistence, and determination.**

**Success in life requires the same.**

That's why we provide educational resources, emotional support, and leadership training. It's why we cultivate a supportive, tight-knit community that pushes each of our kids forward, together, every single day.

The Senior Leaders Program needs your help to transform the lives of Philadelphia's underserved and immigrant youth.

## Our Program

The Senior Leaders Program serves 100 teens annually. The core program, operating November through May, includes:

- Soccer and fitness training
- Competition in leagues and tournaments
- Health, nutrition, and injury prevention education
- Life skills and leadership curriculum
- Academic support, college guidance
- Career exposure, professional development workshops
- Community service
- Youth Council

Every participant is matched with a mentor, who helps them set and stay on track toward ambitious goals. Participants attend regular sessions and opt-in activities 2-4 days per week.

In the summer, our teens come in for soccer and drop-in mentoring, as well as work as coaches in our camps. We also connect them to leadership camps and special opportunities.

## The success of our model is proven.

Not just by our 100% high school graduation rate, or 92% college enrollment rate, but by the pride, the poise, and the confidence of each of our participants.

Every day our kids find the star in themselves.

And every year, those stars are launched into adult society as engaged, responsible leaders who will positively impact the thousands of lives they will touch over a lifetime.

**That's how we inspire real social change.**
